This article provides an in-depth overview of collective investment schemes in Luxembourg law, exploring their legal structures, regulatory requirements, advantages, and key considerations for investors and fund managers.

Overview of Collective Investment Schemes in Luxembourg

Collective investment schemes (CIS) are investment vehicles that pool funds from multiple investors to invest in diversified portfolios of assets, such as equities, bonds, real estate, or alternative investments. In Luxembourg, CIS are governed by a well-developed legal framework designed to promote transparency, investor protection, and market stability.

Luxembourg's legal environment accommodates a wide range of CIS types, including undertakings for collective investment (UCIs), specialized investment funds (SIFs), reserved alternative investment funds (RAIFs), and undertaking for collective investment in transferable securities (UCITS). Each type caters to different investor profiles, risk appetites, and investment strategies.

Legal Framework for Collective Investment Schemes in Luxembourg

Luxembourg's legal structure for CIS is primarily based on the Law of July 17, 2014, on undertakings for collective investment, which modernized and harmonized the existing legal provisions. The key legal instruments include:

1. The Law of July 17, 2014

This law consolidates the regulation of UCIs and introduces a modernized, flexible legal framework, aligning Luxembourg law with European directives such as the UCITS Directive and the Alternative Investment Fund Managers Directive (AIFMD).

2. The Law of February 13, 2007

This law governs specialized investment funds (SIFs), offering a flexible legal environment tailored for sophisticated investors and alternative strategies.

3. The Law of July 23, 2016

This law established the Reserved Alternative Investment Fund (RAIF) regime, providing a fast-track authorization process and less stringent regulatory oversight for well-regulated funds.

4. The European Directive Framework

Luxembourg CIS laws are aligned with European directives, ensuring the free movement of funds and cross-border marketing within the EU. These include:

- UCITS Directive
- AIFMD
- Prospectus Regulation

Types of Collective Investment Schemes in Luxembourg

Luxembourg offers various legal forms and structures for CIS, each suited to different investor needs and investment strategies.

RAIFs are a subset of SIFs that benefit from a fast-track registration process, provided they are managed by authorized AIFMs. They are not directly authorized by regulators but must adhere to the same rules.

4. Investment Companies in Risk Capital (SICARs)

SICARs are tailored for private equity and venture capital investments, benefiting from specific tax advantages.

5. Specialised Investment Funds (SICAVs)

SICAVs are open-ended investment companies often used for retail and institutional investors, offering flexibility in management and investment strategies.
